### **TAKE Solutions Recognized on FL100 List for Fifth Consecutive Year**

*FL100 underscores company's commitment to helping food, beverage, and CPG customers differentiate themselves within the marketplace by facilitating improved safety and traceability throughout the supply chain*

**Chennai, India – December 20, 2011** – TAKE Solutions Ltd. [BSE: 532890 | NSE: TAKE], a leader in the Supply Chain Management and Life Sciences domains, today announced it has been selected by *Food Logistics* for the magazine's annual *FL100* list for the fifth consecutive year. TAKE is recognized as a top technology solution partner for providing food, beverage and consumer packaged goods (CPG) companies with full visibility, agility and control across their supply chains. TAKE's expertise in helping Welch's, SunOpta, Darigold, Blue Bell, and Colorcon ensure inventory and warehouse operations run smoothly and required safety compliance mandates are fulfilled, was a direct result in the company's selection in the 2011 FL 100. This year, the magazine focused on solution providers that are helping customers differentiate themselves in the marketplace, while simultaneously facilitating improved safety and traceability throughout the supply chain.

"With the passage of the FDA's landmark Food Safety and Modernization Act, the entire food and beverage sector is under increased pressure to improve safety and traceability throughout the supply chain. In addition, the ongoing globalization of food supply chains demands closer collaboration with suppliers and enhanced visibility from farm to fork," notes Lara L. Sowinski, editor-in-chief at *Food Logistics*. "Technology is a powerful tool that can ensure compliance, mitigate risk, and serve as a market differentiator in today's highly competitive environment."

The *FL100* listing serves as a resource for grocery and foodservice distribution and manufacturing executives. After receiving nomination forms from end users and solution providers, the editorial staff reviewed over 160 submissions to compile this year's listing. Final recipients are featured in the November/December 2011 issue of *Food Logistics*, as well as online at [www.foodlogistics.com](http://www.foodlogistics.com).
