Notes:-

- Figures for the previous periods have been regrouped / reclassified wherever necessary
- Consequent to sub-division of Ordinary and 'A' Ordinary shares both having face value of ₹ 10 each into 5 shares having face value of ₹ 2 each during the quarter ended September 30, 2011, earnings per share of previous periods have been restated to make them comparable
- In October 2008, the Company moved the Nano project from Singur in West Bengal to Sanand in Gujarat. The newly elected Government of West Bengal enacted a legislation on June 14, 2011, which was notified on June 20, 2011, to expropriate the entire property consisting buildings and leasehold land relating to project at Singur. The Company has challenged the legal validity of the legislation including the process of compensation in the Court of Law the outcome of which is pending as of the date of approval of these financial results by the Board of Directors. Based on management's assessment no provision is considered necessary to the carrying cost of buildings at Singur.
- The Ministry of Corporate Affairs on December 29, 2011, issued a notification amending Accounting Standard (AS) 11- The Effects of Changes in Foreign Exchange Rates, with effect from April 1, 2011, to extend the amortisation period of the exchange differences on long term foreign currency monetary items (other than those relating to acquisition of depreciable capital assets) over the balance period till maturity or March 31, 2020, whichever is earlier. Such exchange differences in quarters ended June 30, 2011 and September 30, 2011 were amortised till March 31, 2012. Consequent to the change in amortisation period ₹ 660.64 crores has been credited to Profit and Loss Account in quarter ended December 31, 2011. During the year ended March 31, 2011, such exchange differences were amortised till March 31, 2011 based on the accounting standard applicable to those periods. The unamortised balance (debit) (net) carried forward as on December 31, 2011 is ₹ 1,503.28 crores
- The tax expense is not comparable with the profit before tax, since it is consolidated on a line-by-line addition for each subsidiary company and no tax effect is recorded in respect of consolidation adjustments. This accounting treatment is as per accounting standard AS 31. Further, the tax expense is lower due to set off of carry forward losses of certain subsidiary companies.
- The net amount of ₹ 297.45 crores (debit) and ₹ 656.44 crores (debit) (both net of tax ₹ 444.43 crores) for quarter and nine months ended December 31, 2011 respectively (₹ 628.63 crores (debit) and ₹ 901.02 crores (debit) for the quarter and nine months ended December 31, 2010 respectively), of changes in actuarial valuation of pension plans of Jaguar Cars Ltd and Land Rover, UK, have been accounted in "Reserves and Surplus" in accordance with IFRS principles and permitted by AS 21 in the consolidated financial statements. This treatment is consistent with the accounting principles followed by Jaguar Cars Ltd and Land Rover, UK, under IFRS
- Automotive operations of the Company and its consolidated subsidiaries represent the reportable segment, rest are classified as 'Others'. Automotive segment consists of all types of commercial and passenger vehicles including financing of the vehicles sold by the Company. Others primarily include engineering solutions and software operations.
