3. For the year FY 2020-21 domestic and global installations will be getting affected due to COVID-19 lockdowns. Other engineering castings demand will also be getting affected during this period.

4. Supported by additional capacities and good export demand for Indian castings, revenues are estimated to grow between 10% to 20% by factoring 8 weeks of operational disturbance due to COVID-19 pandemic. Export revenues are estimated to grow over 100%.

5. In spite of moderate growth forecast for FY 2020-21, profit before tax is estimated to grow substantially with higher export business and cost improvement initiatives.
