The taxability of the income on sale/redemption of units and the rates at which such income is taxed is discussed below:

If the units are held as stock-in-trade:

If the units are held by an investor as stock-in-trade of a business, the said income will be taxed at the rates at which the normal income of that investor is taxed.

On sale of the units of an equity oriented fund on a recognised stock exchange or to the Mutual Fund, the investor will also be charged with Securities Transaction Tax (STT) as per the rates specified in para on STT, provided the transaction is also considered as a "taxable securities transaction". In other cases, STT is not levied.

Further, the investor is not allowed any deduction of STT paid for the purposes of computing his business income. However, a rebate under section 88E of the Act is available in respect of STT paid. The rebate is available in form of a deduction of the STT paid from the tax payable on the income from the taxable securities transaction. The tax payable on the income from taxable securities transaction is computed by applying the average rate of income-tax on the total income. The rebate in respect of STT paid cannot, however, exceed the tax payable. Also, this rebate can be claimed by an investor only if appropriate evidences are furnished in Form No. 10DB along with the Return of Income.

If the units are held as investments:

If the units are held as investments, the tax rates applicable will depend on whether the gain on sale of units is classified as a short term capital gain or a long term capital gain. If the units of the scheme are held as a capital asset, for a period of more than 12 months immediately preceding the date of transfer, will be treated as long-term capital assets for the computation of capital gains. In all other cases, they would be treated as short-term capital assets.

The tax rates applicable on short term or long term capital gains arising on transfer of units of a scheme, being an equity oriented fund are stated in the following table:

Nature of income	Tax rate\$
Short-term capital gains on sale either to the Mutual Fund or on a recognised stock exchange	Capital gains tax payable at 10 percent* [applicable to all investors including Foreign Institutional Investors (FII)]
Long-term capital gains on sale either to the Mutual Fund or on a recognised stock exchange	No capital gains tax payable by any investor.

* plus surcharge and education cess as may be applicable. In case of non-resident investors, the above rates would be subject to applicable treaty relief.

\$ Additionally, STT would be payable at the rates specified in para on STT. The tax rates applicable on short term or long term capital gain arising on transfer of units of a scheme, not being an equity oriented fund as discussed above are stated in the following table:

Nature of income	Tax rate
Short-term capital gains	In case of FIIs, 30 percent* For others, taxed at normal tax rates.
Long-term capital gains	In case of FIIs, 10 percent* (without indexation) In case of others, 20 percent* (with indexation) or, 10 percent* (without indexation), whichever less.

*plus surcharge and education cess as may be applicable.

The withholding tax implication (i.e. TDS) in respect of the capital gains explained above is discussed below:

(a) Resident Investors:

No tax is required to be deducted at source from capital gains arising to resident investors at the time of repurchase or redemption of the units.

(b) Non-Resident Investors:

The tax is required to be deducted at source from the sale proceeds or redemption proceeds paid to non-resident investors. This withholding is in addition to the STT payable, if any, by the investor. The rates are:

- (i) Foreign Institutional Investors: No tax has to be deducted on redemption/sale proceeds.
- (ii) Non-Resident Indian (NRI) / Person of Indian origin (PIO):

	Short Term Capital Gains	Long Term Capital Gains
Equity oriented funds*	10%	NIL
Other than equity oriented fund*	30%	20%

* plus surcharge and education cess as may be applicable.

For administrative purpose, the Fund will deduct 10% surcharge.

(iii) Non-Resident Corporates:

	Short Term Capital Gains	Long Term Capital Gains
Equity oriented funds*	40%	NIL
Other than equity oriented fund*	40%	20%

* plus surcharge and education cess as may be applicable.

For administrative purpose, the Fund will deduct 2.5% surcharge.

All the above non-resident investors may also claim the tax treaty benefits available, if any. For details of applicability and eligibility of such benefits, the investors are requested to consult their tax advisors.

Provisions regarding Dividend income and Bonus

Losses arising from the sale/redemption of units purchased within 3 months prior to the record date (for entitlement of dividends) and sold within 9 months after such date, is disallowed to the extent of income on such units (other than on sale/redemption) claimed as tax exempt.

If an investor purchases units within 3 months before the record date (for entitlement of bonus) and sells/redeems the units within 9 months after that date, and by virtue of holding the original units, he becomes entitled to bonus units, then the loss arising on transfer of original units shall be ignored for the purpose of computing his income chargeable to tax.
