MANAGEMENT DISCUSSION & ANALYSIS

Your Director is pleased to present the Management Discussion and Analysis Reports for the year ended March 31, 2016 as under:

1. Overall Review:

In spite of the adverse market conditions prevailing in various businesses in which the Company operates, the overall performance of the Company during the year has marginally improved compared to that of the previous year. The global economic outlook remained uncertain and challenging with a growth of about three per cent in 2014. There were many reasons for this sluggishness including weak recovery in the US and Europe and a general economic slowdown in emerging economies like China and India. During much of 2014-15, there was no turnaround in the domestic economy in either consumption or investment as was reflected by the downward trend in both the capital and consumer goods segments. The high borrowing cost to combat inflation, coupled with lower consumption, low investment in infrastructure and other sectors of the economy were responsible for this, although agriculture and allied businesses had shown some improvement, reflecting increased confidence in India's long-term economic prospects although growth is yet to show any definite signs of emerging from a slump. The Rupee has recently strengthened against the US Dollar which might adversely affect exports from India.

It is expected that the economy should grow in the coming years and the demand for textile products should improve which will enable the Company to regain steady or better performance.

2. Industry Structure & Development:

The Company is engaged into the business of trading and dealing in textile and textile related goods & products. The textile industry in India has been a pioneer industry. The recent liberalization measures have presented the industry with a golden opportunity to regain its lost glory. Indian textile industry is the second largest in the world. For the Indian economy, the textile industry accounts for 14% of its industrial production employing over 35 million people.

3. Opportunities and Threats:

There is good scope for growth for the textile industry as India's share in the global trade in textiles is weak compared to other countries. The free trade environment is a great opportunity for the Indian textile industry to increase its share in the global market. Chinese exports are slowing down on account of various factors inclusive of increase in domestic demand and rising costs. This is a good opportunity of which our textile industry should make use but smaller countries like Bangladesh, Sri Lanka, Pakistan, Turkey and Vietnam etc. are becoming formidable challengers. The Indian textile industry, a key player in the national economy and the second largest employer of skilled and unskilled workers after agriculture, is on a revival track due to increase in demand of yarns, fabrics and clothing from international and domestic market. Textile industry representatives are anticipating a positive growth of the sector in the next fiscal year. However, increasing competition, inflationary pressures, government rules and regulations, price volatility, entry of multinationals and various other factors are the major challenges faced by these industries.

4. OUTLOOK:

The directors are hopeful of increasing the sales Turnover of the components through diversifying the product basket and business area. The Company is optimistic about the more growth process for the current Financial Year.

5. RISKS AND CONCERNS

Dhenu follows a process of risk management that comprises risk identification, risk analysis and measures for mitigation. Following are the broad categories of risk identified by your Company:

6. **HUMAN RESOURCES STRATEGY**

“Annexure B” to the Independent Auditor’s Report of even date on the Standalone Financial Statements of Dhenu Buildcon Infra Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Dhenu Buildcon Infra Limited** (“the Company”) as of **March 31, 2016** in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

108th ANNUAL REPORT

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
