MANAGEMENT DISCUSSION AND ANALYSIS :

1. INDUSTRY STRUCTURE AND DEVELOPMENT :

Textile industry contributes significantly to the country's total exports. The Government has allowed formation of textile parks in many parts of the country. Substantial capacity expansion has taken place in the textile sector. Industry has gone through rising raw material cost, scarcity of power, labour and fluctuation in currency etc.

2. OPPORTUNITIES AND THREATS :

This Company being a major supplier of melange yarn to the Tirupur market with its local presence, there is good scope for improved turnover and profitability. The Company has been improving its share of value added yarn in the market in the form of Dyed fibre yarn, Dyed cotton yarn, PC yarn, etc. The Company offers competitive price due to low power cost through windmills, low interest cost, low processing cost, etc. The Company has obtained ISO 9001:2000 Certification, MGMT.SYS RVA C 216 Certification for quality management and systems and OEKO TEX STANDARD- 100 Certification for not using harmful substances in the product. The OEKO TEXT STANDARD-100 certification is a pre-requisite in the global market as the supplies are made to exporters. This will increase the trade / export opportunities to the Company.

Though presently there is a certain lack of clarity in the general market conditions, no unit - specific threat to the operations and performance of the Company is perceived in the long run. However any major changes in export / import policies related to cotton and yarn and foreign currency fluctuations will have their impact on textile sector. Current Price fluctuations in yarn will affect the Market of our product in the forthcoming period. More over we are facing Labour scarcity and it will have impact on our production. Power generated by wind mills are not fully utilized by the Electricity Board and due to this wind mills were kept idle for some times.

3. SEGMENT-WISE PERFORMANCE :

The Company operates only in one segment and the operational results are mentioned elsewhere in this report.

4. OUTLOOK :

The Company will continue to perform well in the domestic market. The Company is in the process of implementing several cost saving measures, which will make the product more competitive.

5. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY :

The Company has adequate internal control systems and procedures commensurate with its size and nature of its business for the purchase of raw materials, plant and machinery, components and other items and for sale of goods. The adequacy of the internal control system is also periodically reviewed by the Audit Committee.

6. FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE :

The financial performance of the Company has been discussed at length in the directors' report to the members.

7. **MATERIAL DEVELOPMENTS IN HUMAN RESOURCES / INDUSTRIAL RELATIONS FRONT :**

The Company has required number of skilled / semi-skilled persons and places emphasis on training for improving quality and productivity.

8. **HEALTH AND SAFETY MEASURES :**

The Company has taken medical insurance cover for all workers. Adequate safety measures have been taken in all our plants for prevention of any untoward incidents.

9. **CAUTIONARY STATEMENT :**

Statements made in this report regarding the Company's objectives, projections, expectations and predictions may be forward looking statements under the applicable securities law and regulations. Actual results could differ materially from those expressed or implied. Some of the important factors that could make a difference to the Company's operations include global and domestic demand-supply conditions, finished goods prices, raw material costs and availability, interest rates, fuel prices, fluctuations in exchange rates, changes in government regulations and tax structure, economic developments in the domestic and overseas market and other incidental factors.
